SUBJECT: List of Mongolian Registered Ships

Sensitive But Unclassified - Not for Internet Distribution.

¶1. Mongolia's Ministry of Roads, Transportation and Tourism (MRTT) has provided post with a list of 283 "active ships" currently registered under the Mongolian flag. Ministry officials define "active" as those vessels operating on a regular, long-term basis with a normal or permanent registration. MRTT reports that, on average, there are approximately 800 additional ships under short-term registration (max 3 months) at any given time. Short term registration of ships is used primarily for one-time voyages, special charters, final trips to the scrap yards, or by shipping companies who are flag shopping.

¶2. The ships range in type from a yacht to oil tankers. The most common vessel types are: cargo (about 120); barges (about 60); and tug boats (about 50). The ships' countries of ownership are as follows:

39 - Not stated
1 - Albania
